Title: DISPLAY AND POINTER MANIPULATION USING RELATIVE MOVEMENT TO A DEVICE

AMENDMENT

THE COMMISSIONER OF PATENTS
Washington, DC 20231

RECEIVED
OCT 11 2002
Technology Center 2600

Sir:

In response to the Office Action mailed June 18, 2002, please amend the application as follows:

IN THE CLAIMS:

Please re-write amended claims 1, 8, 17, 22, 32, 36, 43, and 52 as follows: (The non-amended claims are also included for the Examiner's convenience.)

1. (Twice amended) An electronic device, comprising:

a display showing an image; and,

a navigation sensor, whereby a movement of said electronic device relative to a

surface in close proximity to said navigation sensor is sensed by said

navigation sensor and said movement includes moving said display and

said movement produces a change in said image that is showing on said

display.
